

VISITOR HYGIENE

Tips & tricks to make sure you are harvesting and preparing food safely!

Are you feeling healthy?

If you are feeling sick and/or are experiencing vomiting, diarrhea, jaundice, or have a fever, please go home! You can come back after your symptom free for 24 hours.

No pets, please!

Only service animals are allowed in production areas.

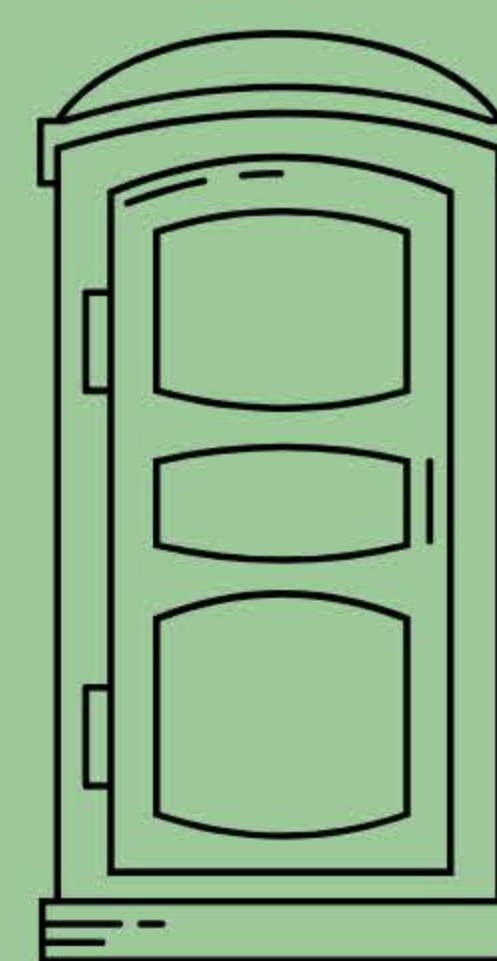

Wash your hands!

Anytime before you are to touch produce, after using the restroom, after eating.

Utilize the restroom and handwashing areas.

Please don't go to the bathroom in the field!

Don't pick poopy produce!

if you see poop, let a farm worker know! Don't harvest poopy produce!

Use clean containers.

Before you begin harvesting or packing produce, make sure the container you are using looks clean first!

No smoking, vaping, or eating in the fields or wash/pack area.

You can do these activities in designated areas. Ask if you are unsure where these areas are!
